

Instructions for Saving a Recorded File from the XDS Pro Receiver

You will need the IP Address of that receiver. You can get it from the front panel of the receiver by using the keypad and going to Setup > Network > LAN Address. Then browse to the address on a PC on your network:

Setup Network
LAN Address
XX.XX.XX.XXX

After you enter the IP Address on your browser, you will see the receiver's log in screen:

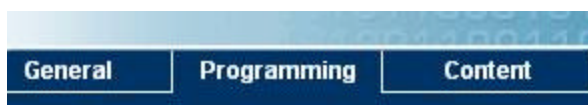

A screenshot of a login interface with a dark blue border. It contains two text input fields: 'User Name:' and 'Password:'. Below the 'Password:' field is a 'Login' button.

Login info:

Username: **tech**

Password: Use your Affiliate NMS password or you can use your receiver's daily password.

Once you are in the receiver's status screen, click on the Programming tab:

Once you are in the Programming area, click on the Recordings tab:

Once you are in the recordings area, you will see a list of all the recorded content saved on the receiver:
